

Future Engage Deliver (FED)

A programme for organisational evolution working with Steve Radcliffe

This programme aims to genuinely grow leadership going beyond the superficial to develop mastery, peeling back the layers and getting to the heart of who we are as leaders at our best.

We will launch FED in September as part of a new format Headteacher Strategy Day. The first session, a twilight, will be an interactive briefing to provide the tools, principles and vision of FED in the context of school leadership allowing time to reflect and contextualise before the full session the next day.

Transform & FED

The values and characteristics that underpin the FED leadership approach embody what we consider to be unique features of our partnership. We have been introducing the approach via Strategy Days and Middle Leaders for some time. This year we are embracing FED in full, using the principles to underpin our entire leadership offer. FED will also be the focus for all 3 of our Headteacher Strategy Days.
