

**Selina Forrest**  
Assistant Headteacher  
Rufford Primary School

- Assessment
- Closing The Gap
- Maths
- Behaviour & Discipline

“I am passionate that all children have the chance to achieve. I see working alongside and supporting colleagues as something that is fundamental to my ethos as a practitioner and leader. I look forward to new challenges and relish the chance to share good practice. I never get tired of learning!”

Selina is Assistant Head at Rufford Primary School. She has worked in Nottingham City schools for the past 8 years and has been a member of the Senior Leadership team for five of these years.

Selina leads Maths and has responsibility for assessment and interventions across the school. She has implemented strategies to ensure correct pitch and progression in maths lessons whilst sharing AFL techniques to support assessment, including marking.

She has used both formal and informal coaching and mentoring throughout the school to make significant improvements to teaching and learning, resulting in a good OFSTED in 2015. She fosters a strong collaborative approach to ensure that all stakeholders are involved in improving teaching and learning and values that everyone has something to contribute.

Selina can support teachers and leaders in data analysis and the implementation of effective strategies for monitoring the impact of interventions in both English and Maths. She can also tailor leadership support to improve all pupil progress and vulnerable groups' progress.
