

**Natasha Rose, Assistant Headteacher  
Blue Bell Hill Primary School**

- EYFS lead
- TA performance management

I am enthusiastic and reflective and have a real passion for school improvement. I look forward to offering support to other EYFS teams as well as enhancing my own practice and teaching. I hope to form good relationships, share good practice and offer support where needed. I am passionate about providing children with the best education and experiences to help them grow and be the best they can be.

Natasha has worked at Blue Bell Hill Primary School for the past 9 years, working across all three key stages before settling in the EYFS where she has found a passion for seeing the children grow and make outstanding progress. Since becoming assistant head she has worked closely with the whole school team and the senior leadership team to keep the EYFS as 'outstanding', judged by Ofsted.

Working with the Nottingham City local authority moderation team has given Natasha the opportunity to utilise her expertise to provide support and advice to city schools; helping to ensure that standards are raised and EYFS profile assessments and observations are accurate across the city.

Natasha has taken the lead in Phonics across school and has also worked as PE co-ordinator. This has developed her confidence and ability to share good practice, introduce new school approaches to teaching and encourage staff to reflect and improve.

Natasha is able to provide specialist support to individuals or teams of EYFS practitioners in raising standards and developing their setting; through looking at the learning environment, effective continuous provision, planning, interventions and organising staff and timetables.
