

## TA Leadership Management and Development Workshop

**A tightly focussed development workshop led by Trish Wilson and Fiona Moore designed for Leaders of Teaching Assistants to inject effective and consistent skills that build capacity across school teams.**

### Introduction to Leadership:

This workshop is aimed at those new to TA leadership or any current TA leader who would like a leadership refresher or confidence boost.

The workshop will explore the role of a leader in school and will focus on giving Lead TAs the chance to reflect on their role as a leader and how they work with and support staff to create better outcomes for the children. As always, we will tailor the content to the needs of the delegates. The training will include:

- What is leadership?
- How do we define who you are as a leader?
- Organisation, expectations and delivery
- Building your confidence to lead
- What are you like as a leader at your best
- Structures for getting things done

### Our Facilitators

This workshop will be facilitated by Trish Wilson, an SLE experienced in creating and delivering Support Staff CPD and Fiona Moore, an experienced leadership development expert, facilitator of 20 years' experience and developer of the Transform Coaching and FED Programmes.
